

POULTRY FEEDING RECOMMENDATIONS

For Healthy Animals

Mix Calf Gold 3E with an equal amount of Gold Spike to come up with a 50:50 ratio of product.

When administering, turn off the water for one hour or more so the product mixture is consumed in 2-3 hours.

MAINTENANCE

Mix 5 grams of this mixture per 200 birds daily

TREATMENT

Mix 10 grams of this mixture per 200 birds for 8 days.
If fever exists, include 1cc of liquid aspirin per liter of water.

BIRD FLU

Mix 20 grams of this mixture per 200 birds for 8 days.
If fever exists, include 1cc of liquid aspirin per liter of water

OCEAN MINERALS

Feed daily at the rate of 12 grams per bird per day
