- Maintenance: 1 small scoop (3 grams)
- Stressed: 2 large scoops (56 grams)

Ocean Minerals (use large Gold Spike scoop):

- 2-3 scoops per day for 1,200 lb horse
- Free choice Ocean Minerals at will

PRODUCT EXPLANATION

StartUp Gel:

- Concentrated gel that stimulates water and feed consumption

Gold Spike:

- **Great for Inflammation!** Enhances the immune response in the gastrointestinal tract by quieting the pro-inflammatory response caused by pathogenic infections

E-One:

- Works with the digestive system to help enhance nutrient utilization, reduce the risk of digestive upset, and support a robust immune system

Ocean Minerals:

- A complete proprietary combination of vitamins, macro, and micronutrients. Seaweed-derived ocean calcium, magnesium, ocean salt, and trace minerals act as a **Smartbacteria** catalyzer, thus creating the near perfect natural environment to initiate bacterial growth in support of Microbiology Nutrition.

* Ocean Minerals contains supplemental selenium and copper and should be fed only at recommended feed rates.
